

Student Assignments for Virginia Practice

All students should read the statutes and Rules before each class. As for cases, you should read them if your schedule permits, but we will cover the principles contained in those cases in class.

I am assigning students to be prepared orally for certain classes. You should know the cases as well as the statutes and Rules for your assigned class. If you are absent for the class you are assigned, please trade with another student and let me know of the change.
