No Class

Problems and additional reading including certain cases will be assigned throughout the semester. Students are expected to attend each class and to complete each reading and problem assignment prior to the start of the respective class. Each assignment includes all Code Sections referred to in SM&L. Students who do not complete the reading assignment prior to class are likely to find that they have a difficult time following class discussions and an even more difficult time with the examination.

As an adjunct faculty member, I do not maintain office hours. However, students should feel free to call me during business hours at the number shown above or consult with me briefly after class in order to ask any questions. Further, I am available by appointment for more extensive discussions.

A take-home exam will be distributed on or after the last class.
