Classes will be held on Tuesdays and Thursdays from 6:15 pm to 7:30 pm in Founders Hall Room 432C. The 3 hour final exam will be held on Thursday, May 2 at 6:00 pm.

The Exam

There will be a single examination in this course. The final examination will cover the reading materials and the class discussions. I will expect you to demonstrate knowledge of the statutes and common law applicable to Patents, Trademarks, Copyrights and Trade Secrets as well as the policies behind them. The exam will include material covered in class that is not included in the textbook, so attendance at class is essential to perform adequately on the final exam. Students are expected to read assigned materials prior to class. Cases will be assigned to students in teams of three at the end of each class for report-outs for the next class.

Textbooks: Intellectual Property: Cases and Materials on Trademark, Copyright and Patent Law, 2d ed. (Rochelle C. Dreyfuss et al), Foundation Press (2004) and the 2010 Supplement. It is recommended that you have Schechter's Selected Intellectual Property and Unfair Competition, Statutes, Regulations and Treaties, 2012 9780314281876, Roger E. Schechter (George Washington). You can reach Professor Stephen Kunin at SKunin@Oblon.com and Professor Philippe Signore at psignore@oblon.com. The detailed syllabus is set forth below, subject to revision and additional materials to be handed out in class.

Expectations

Your grade may be adjusted upward or downward based on class participation. Unexcused repeated absences will lead to a downward adjustment. It is not just the quantity of participation but the professor's assessment of the quality of the student's contribution to the class. Therefore, a student who speaks every class, but does not say anything particularly thoughtful may not get any added points for participation.

Being able to concisely articulate a position is essential to good lawyering; accordingly, I assign cases to students to ensure equal participation. You are expected to have done the reading and prepare any assigned cases for each class.
Secondary Materials

Although I do not believe that resort to secondary materials is necessary to master the material in this class, there are a number of excellent sources that could be of assistance to you during practice. I recommend:
