Law 208 - Law & Economics Colloquium
Professor Kobayashi
Thursday, 4PM-5:15PM - Room TBA

Course Description:

This is an advanced course that will bring together outside scholars, resident faculty, and ASLS students for discussion of cutting-edge research papers in the law and economics tradition. Approximately two of every three weeks will feature a leading scholar presenting a paper growing out of his or her research in the law and economics tradition. On weeks for which there is no outside speaker, the seminar will meet to review prior workshops and to discuss papers to be presented in later sessions. Students must write short critiques of the papers and are expected to engage in the discussion. The critiques are due at the beginning of each workshop.

All enrolled students must register for TWEN:

The current workshop schedule can be found at: http://www.law.gmu.edu/faculty/workshop

Workshops are open to all interested ASLS/GMU Faculty (including non-law faculty). Faculty from other schools are also welcome to attend. Please contact Bruce Kobayashi (bkobayas@gmu.edu) if you have any questions.
