- [*The Journal of the Virginia Trial Lawyers Association*](#), Volume 22, Number 4, 2011, can be purchased directly from the Virginia Trial Lawyers Association (VTLA).
- [*The Art and Science of Mastering the Jury Trial*](#), also available to purchase from the VTLA.

Course Overview

The goal for this course is for students to learn the basic legal rules applicable to being a successful courtroom litigator. Students will also be exposed (where circumstances permit) to interactive exercises in all aspects of the trial of a criminal and civil case.

Course Learning Outcomes

Students will be able to conduct a successful voir dire, present an opening statement and closing argument, understand and conduct a thorough direct examination, cross-examination and be able to qualify an expert witness. Students will also gain an enhanced learning of the Rules of Evidence based on the text and intent behind the rules.

Classroom Policies

Attendance: Per AR 3-1.4, “maintenance of matriculation requires regular class preparation, participation and attendance, registration in the course of study required for the student’s program (full-time or part-time), successive registration for each fall and spring term of each academic year until study is completed, and compliance with all other relevant requirements.”

Absences: Per AR 4-1.1, “if a student is absent for any reason for more than 20 percent of the sessions of a course, the student is not eligible for credit in that course. A student who is not present for at least 75 percent of a session of the course is absent from that session.”

Participation & Preparation:

Class attendance and participation (by virtue of either cold calling or volunteering) will also be taken into account in calculating a student’s ability to successfully pass this course. As this class is very interactive, students will be expected to have prepared for class exercises and the role-playing exercises necessary to become effective courtroom advocates.

Use of Technology & AI:

Moderate Use Policy: Generative AI tools may be used in this course for the following purposes, and with the following guidelines. Students may use AI in this course to brainstorm, outline, study, explore, etc, but may not use AI as the primary source for research, as the primary source for text of written assignments, during any quiz or exam, during Socratic dialogue. Students must use AI tools responsibly, verify facts presented by AI, disclose when AI tools are used to create course work product, properly cite any AI tools utilized, and should be prepared to produce the transcript of prompts and responses upon request. Misuse will be treated as a violation of academic standards.
