Required texts: A **physical copy** of the correct edition of each book is mandatory. You must have both books available to you during class.

Casebook: *Contract Law and Theory*, Robert Scott & Jody Kraus (**6th ed.**)

Supplement: *Contract Law and Theory: Selected Provisions* (**6th ed.**)

Assignments

Your primary reading will be from the casebook. If the casebook reading refers to a Code or Restatement section that is in the *Selected Provisions* supplement, read and ponder that section. As you know by now, reading a section several times is necessary but rarely sufficient for full understanding.

Learning Outcomes

This course is about continuing adventures in contract law. Among other skills, at the end of Contracts II, students will understand and be able to apply:

- Rules of interpretation and parol evidence, in order to determine the applied meaning of a contract.
- Mistake and the excuse doctrines, including impossibility, impracticability, and frustration of purpose.
- Conditions and warranties.
- Breach and the extensive universe of damages and compensation.

This course will continue to refine your ability to read and apply cases in a common law system. At the end of Contracts II, students will have an advanced understanding of:

- How and when to apply the common law, the Second Restatement of Contracts, and the U.C.C.
- How to read and analyze a legal opinion in the context of other sources of law.
- How to use analogical reasoning to predict, or advocate for, a legal outcome in a novel factual circumstance.
